

Do Not Share...

We usually teach preschoolers to share with their friends, however, not when it comes to germs and sickness.

The Committee for Control of Infectious Diseases of the American Academy of Pediatrics recommends that a child should not leave home when any of these symptoms exist. We ask you to follow these guidelines:

- Fever (Must be fever free for 24 hours with no medication before returning to a group activity.)
- Vomiting or diarrhea (within the past 24 hours)
- Any symptoms of childhood illness, such as scarlet fever, mumps, chicken pox or whooping cough
- Any unexplained rash
- Any skin infections – boils, ringworm or impetigo
- Green or yellow discharge from nose or eyes
- Any communicable illness
- Head lice, or known exposure to head lice

Please help us maintain a safe and healthy environment by making sure your child is clear of any of these symptoms before bringing him to his class at church.

Thank you for your cooperation as we seek to ensure a safe and healthy environment.
